

At the heart of one of the most dynamic agricultural French region we propose...

- General and vocational courses of agriculture
- Secondary, higher and adult education
- Sandwiched trainings
- National degrees and qualifications approved by the French Ministry for agriculture and food

We are eager to develop international mobilities...

- Study trips
- International work experiences
- Teacher's mobilities
- Erasmus + opportunities

Come and discover high quality agriculture !

- Here, agriculture means sustainability : farmers have developed high-quality and environmentally friendly techniques for both animal and vegetable production.
- It also means diversity in terms of types of agricultural production and commercial aspects.

Our international team...

Is ready to help you make the most of your stay in France !

Our coordinators are the point of contact between the school, the family, the student, and the host company.

Take a look at our international section and do not hesitate to contact us for any information !
